Summary

I am pursuing a Bachelor of Technology in Computer Science at
Kalasalingam University, where I acquire data structures, algorithms,
databases, and web development fundamentals. I have completed
multiple certifications in programming, machine learning, and
server-side development, and have gained hands-on experience
as a data science and machine learning intern at HDLC Info
Technologies. There, I worked on various projects involving data
analysis, visualization, and modeling using Python, NumPy, pandas,
and sci-kit-learn. I am always eager to learn new things and explore
new challenges in the field of computer science and beyond.
